

FIND YOUR *DRIVE.*

3 Award Options:

- One-Year Certificate
- Two-Year Certificate
- Associate of Applied Science Degree

The Automotive Technology program provides training in all eight areas of Automotive Service Excellence (A.S.E.) certification.

Service technicians work on traditional mechanical components, such as engines, transmissions, brake suspension and automotive air conditioning (HVAC). However, they also must be familiar with a growing number of electronic systems.

Potential earnings of \$17.60 an hour!*

Any Questions?

Call the department directly at 830.591.7205
